

LEGAL NURSE SERVICES – MEDICAL REVIEW SERVICE FROM SPECIAL COUNSEL

Special Counsel, the leading provider of legal workforce solutions to law firms and corporate legal departments across the country, developed Legal Nurse Services in response to our clients' need for cost-effective medical review. If you are looking for a way to conserve your resources and control litigation costs, we provide qualified professionals who have the medical knowledge and experience you need, and the document review skills you expect from Special Counsel.

QUALIFIED CONSULTANTS – COST-EFFECTIVE SOLUTIONS – CUSTOMIZED SERVICE

ACCESS TO QUALIFIED CONSULTANTS

Finding people with medical expertise who understand how litigation works can be difficult. Special Counsel has hundreds of carefully-screened, qualified professionals who are prepared to review your medical-related documents quickly and accurately.

SERVICE ON DEMAND

Finding people with medical expertise takes time. Special Counsel recruits every day so that when your need arises, we have trained professionals available and ready to help you review your medical records. We will quickly provide people with the right combination of medical expertise and document review experience to meet critical deadlines.

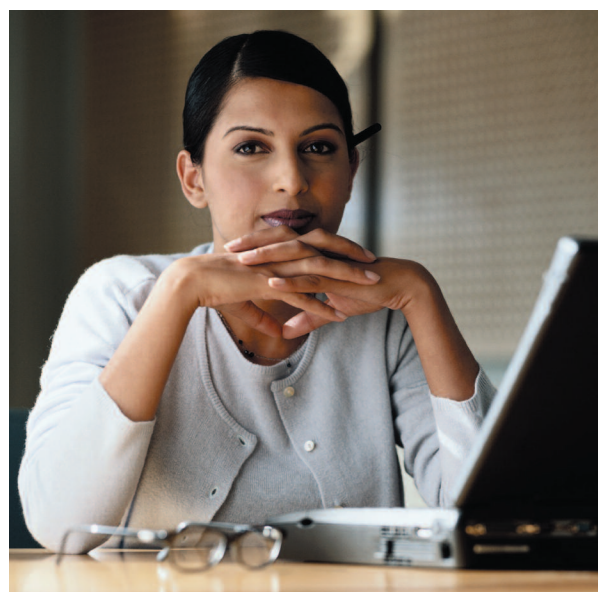

COST-EFFECTIVE SOLUTIONS

Special Counsel provides cost-effective solutions for your medical-related staffing needs. We carefully screen medical and legal professionals and choose only those with appropriate levels of expertise to meet your needs, resulting in the right person for the right assignment.

Special Counsel provides professionals to help with any cases you may encounter requiring medical-legal review such as medical malpractice, product liability, toxic tort, healthcare and insurance claims. Remember, Legal Nurse Services can be provided on site at your offices. Services include:

- Collecting, organizing, and summarizing medical records
- Constructing medical chronologies and timelines
- Creating charts, illustrations, and exhibits
- Providing standards of care review
- Preparing discoverable records for document production
